Locket Picture Instructions

1. Print this page at 100% scale.

2. Using a ruler, check which reference line is closest to 1”, as different printer settings may vary.

3. Cut out the corresponding heart, and use as a tracing template for your photo*.

4. Insert photo into locket, starting at the top of the heart, making sure to slip the photo under the top metal lip.

5. Press down the photo along all edges to secure.

6. Cherish your locket!

*We recommend that you use a photocopy, not the original photo.
